

Wing Man for Sports & Games Officer

Hey Fellow MCR Members!!!!

My name is Wing Man and I am a first year PhD Student in Chemistry. I was born and raised in Germany but have been studying in the UK for 7 years now. Having had to move around, I am aware of the difficulties of adjusting to a new environment and especially making new friends. Therefore, I am particularly grateful to the warm welcome from everyone in the MCR and hope to be able to contribute to the excellent MCR atmosphere by being the new Sports & Games officer.

My plan as a Sports & Games Officer:

- Organise Sport Events (active depending on demand and meet-ups to watch sport events on TV or outside)
- Organise Game nights (Console or board games)
- Organise tournaments if demand is there (table football, billiard, etc.)
- Help members join various Sport teams and keep in touch with other MCR and Sport societies
- Make sure sport materials and games are working and functional (intact)
- Bring people together and hope everyone has a great time!!

So, Why Me?

During my Undergraduate I was the Sports Secretary for QMBL ABACUS. My Role was to organise a football league with other ABACUS universities and various sport tournaments with other societies. Furthermore, during my time as the Publicity officer for the QMBL BIOPHARM society, I developed and improved my skills to advertise and get people enthusiastic about joining fun events. I want to enable every MCR member, new or existing, to have an easy opportunity to get to know new people and make friends. I firmly believe that I, as the new Sport & Games Officer (if you vote for me 😊) can make this possible.

Nominated by ELLA BROWN
