How was punting with fireworks? Seemed Good. Max has organised payment via Kay, Andreas actually took people punting

MCR Survey

- ⑩ **Announce winners of survey? - no, we should not let the identities of the survey be known, so Nicky will send out an email saying the winners have now been chosen, but no identify them.**
Action: Nicky
- ⑩ **At next Open meeting, we will publish the results**

- ⑩ **Announce that the bar is open on the 18th**
- ⑩ Bar training for Butterfield is 17th (**6pm**), opening bar on 18th

- ⑩ Beforehand:
 1. Decor = Aditi & Tessa
 2. Layout = Tessa
 3. Drink purchases – Gabriel/Alex

- ⑩ Different roles at any one time. Action: Nicky will make a timetable to assign roles at specific times during:

1. Running the bar
 2. Activities – Limbo & Hula hoops
 3. Music monitor – **Action: Grace, Max will check with Andy if we need to hand them the playlist. Grace will buy student spotify account, copy the music, then give this to Max well in advance of the day**
 4. Band helper
 5. ticketing
 6. Food = Catering
- ⑩ <clean up> everyone
 - ⑩ Songlist – the band will give this to Andy directly beforehand
 - ⑩ Discussion of the Band:
 1. Needs to fit the outside nature & not be too loud due to a potentially inside environment (if it rains) and so as not to affect the rest of college – Jazz or acoustic, need to speak to the band.
 2. Band liaison = Andreas/Ed, **all the committee needs to do is help the band take over the amps etc before the garden party. We are happy with giving them free tickets.**
 - ⑩ Garden party budget / planning (Andreas & Nicky will help)

Speakers – Ed: suggestion for MCR speaker situation. We could purchase a bar speaker for the TV,b which shouldn't be too expensive then move the current speakers into more-or-less permanent position either side of the projector

Bar worker reimbursement scheme – discussion of how to persuade people to work at the Butterfield bar over the summer. **It is thought that people should be paid in drinks largely (or equivalent of something else if drinks are not desirable). Money payment must certainly be avoided. 2 suggestions:**

1. worker paid 1 drink per shift, supervisor paid 3 per shift with the argument that the supervisor has more responsibility than a regular worker and more duties i.e. will clear up afterwards etc whereas the worker does not have to. The large difference in reimbursement might persuade more people to become supervisors
2. worker and supervisor paid equally – 2 drinks each, equal pay although the jobs are different, supervisor is responsible and cleans but does less of the actual pouring drinks.

Generally option 2 is favoured
